

STAFFING SOLUTIONS

The Bolton Group was started in 1993 as a group of recruiters, some engineers-turned recruiters, with the idea of searching and supplying high-quality candidates for the technical industry.

We offer over 15 years of experience recruiting for executives and technical candidates. We specialize in the **technical** industries, but have staffed professionals in many industries. We have researchers available knowledgeable in the technologies they recruit for.

Never a fee to our candidates

Mission Statement

Bolton Group's mission is to provide managers with exactly qualified candidates in a timely fashion with the least amount of distraction from project deadlines.

Opportunities are knocking!

Procedures

- Once company requirements are determined time is spent researching, and identifying individuals with the right skills
- We prescreen each candidate before submitting their resume for the job.
- After the candidate is chosen, we follow through with negotiations on the offer and other final closing items to insure a smooth hire.

Experience

Bolton Group has maintained a high standard of service and commitment in the staffing industry. Our reputation, discretion, and consistent record of successful placements have helped us build strong and trusted relationships with well-known clients and top-quality candidates

Expertise

We specialize in the high tech industries, accounting and executive search. We have placed candidates in semiconductor, telecom, datacom, networking, medical device, financial, and accounting industries and many others.

Knowledge

Prior experience with OFCCP, background, and drug testing. Knowledgeable in working with immigration attorneys for work visas.

Corporate or onsite staffing

Our hourly rate is competitive, and we offer on staff consultants for onsite corporate recruiting. We offer recruiters experienced in full-cycle recruiting.
